## El Fons MIL. Entre el record i la història

€19.00

2006, 162 pp.

The collection of the Movimiento Ib rico de Liberaci n (MIL) gathered and preserved in the Centre d'Estudis Hist rics Internacionals del Pavell  de la Rep blica (CEHI) comes from several donations produced throughout the years. The main and most important body of the documentation arrived in 1975. Ignasi Sol  Sugranyes put in order the donation in December 1976 and the documents became part of the CEHI's archive, so they make up one of the most important collections for studying this anti-Franco organization. The collection has increased thanks to other donations such as those of Ignasi Sol  Sugranyes and that made by Xita Sugranyes de Franch in 2004. The CEHI also has Salvador Puig Antich's personal collection (his personal documents, papers of the Direcci n General de Seguridad on his record, documentation related to the revision of the process against him, letters, photographs and posters), given by his sister Carme Puig Antich in July 2004. The enquiry of this collection is restricted due to the most part of it contains personal mail.
